SMTP Virus Filtering by Time

Top 10 file filtering situations on a timeline.

About Network Security Platform

Forcepoint Network Security Platform enables distributed organizations to improve application performance, simplify network management, and increase security - ensuring users can safely access applications from anywhere. By combining NGFW, SD-WAN and intrusion prevention with zero-touch deployment and updating, it provides centralized visibility and control with high performance that scales to thousands of sites. Forcepoint Network Security Platform delivers secure branch solutions that boost productivity, cut costs, reduce risk, and streamline compliance.

For further information visit www.forcepoint.com.

About Forcepoint

Forcepoint simplifies security for global businesses and governments. Forcepoint's all-in-one, truly cloud-native platform makes it easy to adopt Zero Trust and prevent the theft or loss of sensitive data and intellectual property no matter where people are working. Based in Austin, Texas, Forcepoint creates safe, trusted environments for customers and their employees in more than 150 countries. Engage with Forcepoint on www.forcepoint.com, [Twitter](#) and [LinkedIn](#).
